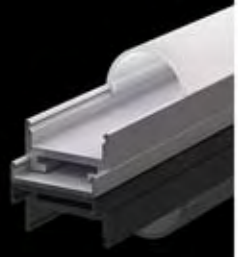
THE ART OF INNOVATION™

IMPACT LIGHTING INC

WWW.IMPACTLIGHTINGINC.COM

The aluminum extrusion led profile systems for LED strips make it possible to design lighting fixtures in any size and shape on desire. Recessed, corner, pendant and surface mount profiles can come with cold, warm, RGB and day light LEDs with regulated intensity of light. For more information on our company and other products, please visit our website WWW.IMPACTLIGHTINGINC.COM

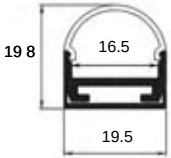


IL-EX-1911

Elaborate design of this LED profile model enables mounting it to the surface with absolutely invis ble bracket. It can be used as pendant or surface mount linear LED lighting fixture of medium brightness.

Mounting options:
- Pendant
- Surface mount

Profile size (mm):
19 x 11 x 2500



CE

ROUND-1911

Semi-round diffuser for aluminum led profile IL-EX-1911.

Diffuser:
frosted /
semi transparent /
transparent

Assembled profile size (mm):
19 X 11 X 2500

CE

CAP-R

End cap for aluminum led profile IL-EX-1911 with a semiround diffuser.

CE

TROS

Suspension system mounting profile to the ceiling.

Material:
Aluminum

Wire length (mm):
1000

IL-EX-8028

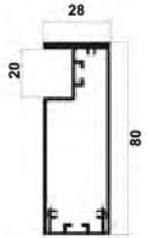
Surface mount aluminum led profile IL-EX-8020 dedicated to pictures and walls lighting. Stream-line design, designed for hotel, museum decorative lighting.

LED profile holder: perfectly hiding a driver.

Light fixture mounting is rather easy and doesn't require special experience: IL-EX-8028 is mounted to the wall. Inside the profile should be mounted additional aluminum led profile with a diffuser -IL-EX-1911.

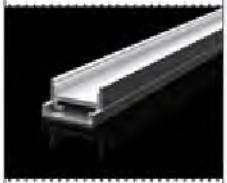
Mounting options:
- Surface mount

Profile size (mm):
80 x 28 x 2500



IP 20 CE

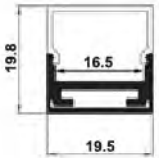
30



Original design of the lighting fixture complements a square plastic diffuser. LED's intensity and color are selected specifically.

Mounting options:
- Pendant
- Surface mount

Profile size (mm):
19 x 11 x 2500



IP 20 CE

L-PRISM01

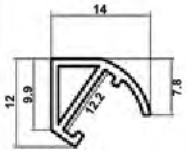
Aluminum led profile L-PRISM 01 is designed for small showcases that don't request strong and bright light.
Length ranges from 20 cm to 2.5 m.

Profile construction is meant for production of the linear lighting fixtures that are nearly invisible in the showcase.

Considerate design to protect visitors eyes from direct bright light.

Available in the following colors:
chrome, gold, matte chrome

Profile size (mm):
12 x 14 x 2500



IP 20 CE

C-END

End cap for aluminum led profile L-PRISM01.
t shapes the lighting fixture and serves for mounting to the side surfaces of the showcase.
There is an intense 3M mounting tape for fast and easy installation.

Available in the following colors:
chrome, gold, matte chrome

IP 20 CE

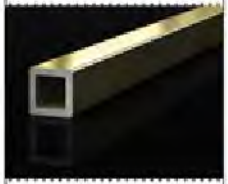
C-90

90° degree angle corner connector
for aluminum led profile IL-PRISM01
Used to connect profiles from one side to another side in 90° degree angle. Enables mounting the LED lighting fixture along the perimeter of the showcase.
At the same time it can mount the lighting fixture to the side surfaces of the showcase.
There is an intense 3M mounting tape for fast and easy installation.

Available in the following colors:
chrome, gold, matte chrome

IP 20 CE

AL5



Rectangle aluminum led profile is designed for hiding the cable.
Rectangle aluminum led profile designs cable pipe for concealed wiring. It is hollow so that wires can be passed through it.
It can be mounted at the showcase corners.
The primary purpose is to hide the wires and give the construction a complete look.
Also it can be used for showcase and glass shelves.
Available in the following colors:
chrome, gold, matte chrome

Profile size (mm):
2500 x 5 x 5

IP 20 CE

ThinGlow
