

# PRODUCTS: LINIO 360™ BORDER LIGHT

# LINIO 360™ BORDER LIGHT

LINIO 360 is a worldwide solid state based accent light tube. It is the only LED based border and accent tube that provides a true look of neon, offering a 360 degree glow. Unlike other bulky LED border lighting systems, LINIO 360 offers a sleek design and has the same tube diameter as standard neon glass tubes (19mm). LINIO 360 is used in a variety of ways, as a popular accent light for outlining the roof line of buildings or other structures, for outdoor cove applications, for accent borders around canopies, and for other neon-like linear applications. LINIO 360 is the only AC driven border tube solution on the market to date, offering numerous performance advantages over DC driven systems.

## SPECIFICATION FEATURES

### OPERATING VOLTAGE:

Typical 24VAC

Maximum 30VAC

PFC>0.90

### LED FORWARD CURRENT:

20mA regulated

Power Consumption:

1.6 W/Linear foot (Red & Orange)

(5.2 W/linear meter)

1.5 W/Linear foot (Blue, Green, Yellow & White)

(4.9 W/linear meter)

### MAX CONTINUOUS RUN:

35 Linear Feet (10.68 m) per terminal for triple output power

25 Linear Feet (7.62 m) for single output power unit

### Construction:

UV stabilized polycarbonate tube with thermal expansion caps

### LENGTH:

1-8 foot lengths (custom sizes available)\*

(.30 m - 2.44 m lengths in increments of .30 m)

### DIAMETER:

3/4" (19mm)

### LAMP LIFE:

50,000 hours

### OPERATING TEMPERATURE:

-30°F(-35°C) to 122°F(50°C)

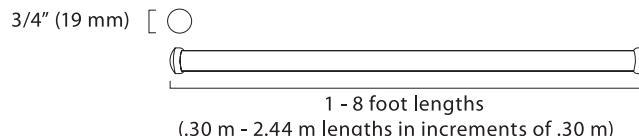

### WARRANTY:

Limited 3 Year

\*Tubes can be custom cut to attain custom fit for application as follows:

Red and Orange can be custom cut to 4" (101.6 mm) increments (i.e. 3'4", 3'8") Shortest length of 1 foot.

All other color – can be custom cut to 3" (76.2 mm) increments (i.e. 3'3", 3'6", 3'9") Shortest length of 1 foot.
