

LIGHTED CLEAR FORM™

GALAXY CLEAR FORM SHELVES™

Our Illumishelf LED Wall Shelves are fabricated in our shop out of 3/4" frosted clear form™ material which looks almost exactly like frosted glass. The clear form is virtually impossible to break. These floating shelves are mounted with wall brackets which we supply that clamp the wall shelf and secure it in place. These brackets are easy to install and can be mounted into studs or with the drywall anchors supplied.

If specified, Impact Lighting Inc. can also install a light diffuser on each wall shelf to eliminate hot spots coming through the front of the shelf.

Color Changing Note: You will need a controller and power supply to run each set of shelves. One controller and power supply can run up to 20 linear feet of shelving.

LED LIGHTED SHELF

The perfect clear form™ display for your needs. Impact lighting Inc. Offers a variety of custom made wave acrylic displays for virtually any use. Wave acrylic shelves are attractive and can last a lifetime when properly cared for. Please feel free to contact us about your needs for a wave designed acrylic shelf.

11

6/5/17/11

- Made of clear acrylic 1/2" or 1" thick
- Heavy beveled rounded edges
- Screw Installation

Clear Form brackets are top quality, crystal-clear Acrylic Shelf Brackets that can support up to 16" shelves. They do not have a back plate, and they have a secure screw mount. They are made out of CLEAR FORM acrylic with heavy-beveled rounded edges.
