

# LIGHTED GLASS

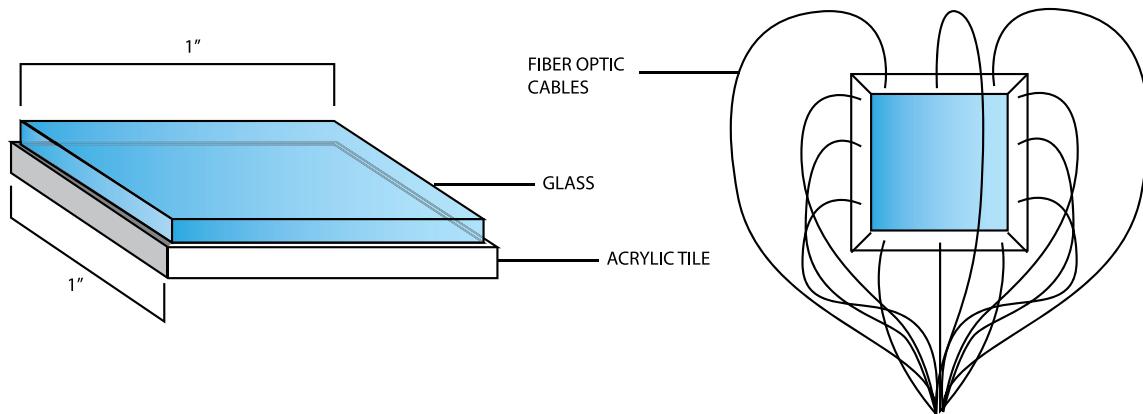

## GALAXY GLASS TILES™

An idea for a dramatic lighting project which takes advantage of fiber optics capability to work safely in wet areas. Glass tiles are increasingly popular as a way of providing a feature or accent in a ceramic tile décor, and now you can take advantage of their translucency to come up with a way of permanently integrating lights into a tiled wall.

**SIZES AVAILABLE:**

- 1"x1" Tile
- 6"x6" Tile
- 12"x12" Tile (1 Ft.)
- Custom Sizes Available
