

# LED THINGLOW™ SERIES BASIC

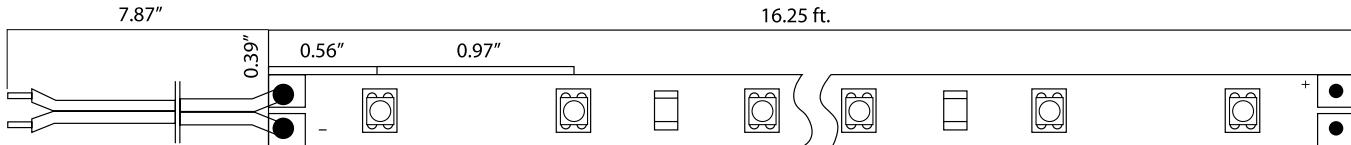

## THINGLOW™ ULTRA BRIGHT - WHITE - NON WATERPROOF

ThinGlow LED illumination system is broadly used for general illumination within commercial and residential applications. The ThinGlow is incredibly versatile and its ease of install makes it an excellent and economical choice for cove, under/over cabinet, toe kick, display case, light boxes, accent, back lighting, stairway, and other illumination applications.

ThinGlow uses a continuous flexible conductor carrier to electronically connect the LED modules, which can be mounted to any finished surface with its adhesive backing that covers 100% of the strips backing. ThinGlow line is the only LED system in the industry with replaceable LED modules.
